Inches of Rain as

Year's Fall Short

More than 2:75 inches of rain have come so far during June, and, added to the showers of May that gave row crops a good boost, things are lush and green. Maize and other head grains are making substantial growth, and cotton is coming along fine, most of it being two to four inches high.

Although the country around Hamlin looks and is wet, rainfall for every month this year has been below normal, and the total of 7.81 inches for the year is nearly four inches below the average of about 111/2 inches for this time of year

January's fall of .01 compared with the average January fall of the past 17 years of .81. February registered .25 inch, compared with average of .92. March's fall was .63, compared with average of 1.39. April tabbed 1.26 inches compared with average of 3.82 And fall of 2.91 for May compares with 17-year average of 3.82. The 2.75 inches for June so far, however, is more than the average of 2.35 inches for the 17-year period.

As usual, rainfall in adjoining communities has been heavier in day afternoon at the weekly draw- several instances than that recording when a 50 per cent coupon of ed official by the government rain Mrs. Gean Witt of Hamlin was gauge at the city pump station by drawn from the hopper that paid Bill Rountree. Suddenly hen-! bulletin to The Herald from Texas pecked Tom Thatcher tore off his Extension Service to farmers of the Hamlin area. Of the numerous weed control choices available, ed for him to stop, but with no three are outstanding, says Fred effect. He swam determinedly to Elliott, extension cotton special-

> These include the rotary hoe, lateral oiling of grass and weeds in young cotton, and spot spraying type, horizontal nozzles, staggered with oils and fortified oils or spot spraying of grass with sodium dalapon in water.

The rotary hoe has been and still is the key weed control practice. In 1958, 44,496 rotary hoe equipped tractors were operated in of over \$13,000,000. The pullvery popular and easy to operate at the reuired high speeds. Rotary hoeing alone, not in combination with sweep cultivation, permits fast coverage and getting into fields quicker after repeated rains, Elliott said.

Changed to Dialing

Sunday morning at 1:01 o'clock marked the changeover from the conventional type telephone to the new dial system in Anson.

The all-new automatic switchboard at 932 11th Street went into service at that time. The new prefix for Anson is Valley.

The new type automatic telephone system of Southwestern Bell Telephone Company at Hamlin is just being started and is due to fight weeds and grass with mato be completed in 1960.

If continued rains prevent getting into the field with the rotary hoe and cause heavy growth of with unfortified naphtha is an excellent way to get out of the grass for about \$1 to \$1.50 for the five gallons of oil needed per acre. This practice was carried out in 47 counties in 1958

at the Friday evening session.

The naphtha is applied with parallel action oiling shoes at 15 to 25 pounds pressure, with two fanand paced 10 inches apart-one nozzle on each side of the row. Direct the spray pattern at the inches of the cotton stem, below the leaves, advises Elliott. Natural wax on young cotton stalks shed the naphtha without injury to the cotton until bark roughens three to five inches tall can be controlled, he said.

Spot spraying established Johnson grass is faster, easier and cheaper than hand hoeing, and Johnson grass can be eradicated in one year. Use the jet-gun sprayer. Apply the oils in small Anson Phone System amounts to the stem of the grass at the ground line. Keros fortified with C-56, one-half gallon to 100 gallons of oil does an excellen job, Elliott said.

Sodium dalapon in water is a systemic foliage spray, and the leaves of the grass must be wet. Again the jet-gun sprayer is ideal equipment for the job. The specialist suggests that you ask your county agent for Bulletin 902, "Spot Spraying Johnson Grass," and for other information on how I chines and chemicals.

SAFETY IS A BUSINESS WITH MAJOR INDUSTRY

One is impressed by the importance which big industries and other big business place on safety practices. A lot of time and effort are devoted to studies and training in safety in this section by such firms as the Celotex Corporation, Shell Pipeline Corporation, the Santa Fe Railway, Midwest Cooperative Oil Mill, Hamlin Sand & Gravel Company, Western Compress & Storage Company and other firms. The efforts are worthwhile, too

A safety man has come up with a sure-fire suggestion on how industry can save itself a lot of money each year. "Extend your safety know-how and resources beyond the factory gate," advised Harry J. Johnson. "Keep your workers as safe off the job as you do on

Johnson is staff representative of the Nation al Safety Council's off-the-job safety com A worker injured off the job," he "is just as absent from work as one who has been hurt at his machine. Offthe job accidents," he said, "cost industry a huge amount of time and money.

Johnson cited figures from a study of the off-the-job accident experience of 84 firms em ploying nearly 350,000 workers. The statistics show that accidents occur much more often

off the job than on-"as much as five to times more often," according to Johnson.

The companies represent a cross-section of price of 50 cents per pound. industry in the United States, Canada and U. S. territories. They are divided into two catgeories-80 companies employing abou 210,000 workers, and four companies with 137,000 employees. The companies are engaged in activities ranging from manufactur ing heavy machinery to operating paper mills

No. 1 hazard to employees of the 80 com panies, the study indicates, is slips and falls. No. 2 hazard, auto and truck accidents

The reverse is true among the four large firms—auto truck accidents edge out slips and falls as the main injury dealer

For deaths alone, auto and truck accidents are the No. 1 killer of employees of all 84

"All this," said Johnson, "emphasizes the urgent need for greater effort to prevent acci-

The safety movement desperately needs the the Petty Geophysical Company kind of leadership business and industry car give to cut down on accidents and injuries which cause untold suffering and each year waste huge amounts of money.

There's Always a Chance

There is a woman in New York who is rec ognized as an outstanding women journalist. But once upon a time it took considerable stick-to-it-iveness for her to get a start. Girls weren't being accepted in the journalistic anyway

But this girl wanted a newspaper job. So she went to a city paper. She asked for one and was told very politely that there were no jobs, and she needn't try gain. She didn's She made another request. She said: "Would you mind if I just sit around and

All that first day the girl sat. Nobody expoted her back the next day, but she came. Again she sat. The third morning she came walking in again. Once more she took a seat for the day.

The city desk decided that it would put an end to the girl's visits. An old woman had died. She was very queer and had left a whole fortune to a houseful of cats which she However, one black cat had displeased her, and had been cut off without even enough money to buy a bowl of milk.

The story was regarded as a joke, so the girl was sent out to do a feature on it. Everyone thought that she would be disgusted with the assignment and ao home

But she didn't. She came in with a story that was clever and sparkling. She just imagined how the disinherited cat felt, and had "interviewed" him

The paper used her story. And she got a steady job

We Work for Achievement

Maybe you have heard the little jingle: "The pleasant little rivers with the drifting folks are crammed; the easy roads are crowded, and the level roads are jammed; where the going's smooth and pleasant you'll always seem to like to drift along.

One of our modern philosophers utters this truth: "Most men drift. It is easier, and saves responsibility—until they strike a rock in the sea of life. Only those who have a port in view, and steer straight toward it, will ever

Why are there so many people drifting, just drifting, on the sea of life? You know the anwer: They have only a dim idea of what they want. They give no thought of how they are going to get it. They fancy that the tide in their affairs will come to the flood some day and bear them on to fortune

Nothing worth while can ever come to the man who sits and dreams. Anything a man er. The club will discontinue the really wants will come to him if he plans for it and works for it

Editorial of the Week

A CHANCE TO DO GOOD

Tulia has a golden opportunity to make a contribution to the Negro race. Its number is small here, comparatively speaking. Its needs are so great that even the smallest contribution would shine like the stars on a dark

One criticism we often hear from school teachers is htat some of the Nearo youngsters are not clean. Such an observation should be a challenge instead of a criticism. To criticize Negro youngster, coming from his Tulia environment, for not being clean is like criticizing a first grader for not being able to read

The well need not a physician.'

A child can be taught to be clean the same as he can be taught to read

When we dig into the problem, we find that the reason for this uncleanness is no altogether the fault of the child. Monday we asked our colored housekeeper how man bathtubs or showers they have out at Sunset She said she didn't know of any.

Not long ago we, along with Dr. Richards Dr. Stewart and Judge Shelton, visited Sun We talked to a number of residents Ech person to whom we talked was asked 'What are your greatest needs?" Over an over came the answer, "a shower bath or tub and a flush toilet.

Tulia citizens and those of other cities need to do something about this important situation.—The Tulia Herald of Community Development

Prompt Payment Of Claims Is Aim By Social Security

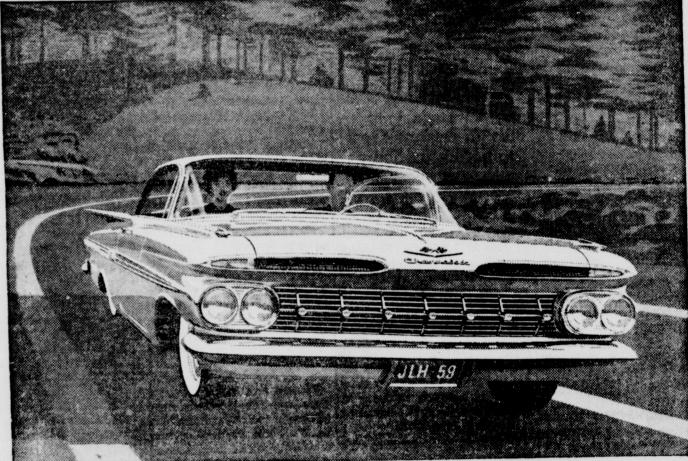

One of the goals of the Social Security Administration is to pay benefits as promptly as possible to those persons entitled to payments, R. R. Tuley Jr., manager of the Abilere office, stated this week.

To do this, Tuley said, it is necessary for the person claiming benefits to make inquiry for payments at his local social security office. A worker should inquire for payments before he retires if he knows he will be retiring on a certain date. This will give the Social Security Administration and the person claiming benefits time to get the information and evidence together to establish his rights to the payment before the time his first check is due.

Generally, evidence will be required to prove the age of the retired person and the age of his wife. This may be an old birth certificate or other record of age you're still not head of your de- that is old and reliable. Delayed birth certificates set up recently are not accepted without supporterably. "But, after all, sir, this ing evidence. Also, evidence of the worker's earnings in the taxable year that ended before he plans to retire is necessary. This may be a copy of the income tax return for self-employed persons or the W-2 forms for wage earn-

Tuley again stressed that for prompt payment of your first social security check "inquire before you retire" at your Abliene social security office or meet a representative of that office when he is next in your community. "But I don't need it," she an- Your local post office has a current schedule of such visits.

County Bond Sales So Far Equal 36.7 Per Cent of Goal

A C. Humphrey of Stamford, Jones County savings bonds chairman, announced this week that savings bonds sales for the first four months of 1959 totaled \$183,216, which equalled 36.7 per cent of the county's 1959 goal. April sales in the county were

Sales for the first four months of the year totaled \$58,105,381, of which \$12,908,783 were purchased In April. Texas has achieved 31.8 per cent of its yearly goal of 182,500,000.

"Savings bond purchases play an important part in the U. S. treasury's task of wise debt management. Each individual who buys a bond is helping to provide for his country's future security as well as his own. Secretary of Treasury Robert B. Anderson pointed out recently that any person who buys a savings bond is putting real meaning in the slogan, 'Share in America'," Chairman Humphrey said.

Jones County was third in the percentage columns in purchases of bonds in the nine-county District 16 of Central West Texas A table of the counties in the district, with purchases for the year and percentage of the 1959 goals

County-	Year	Goal
	Sales for	% of
Callahan	\$ 43,064	20.1%
Eastland	184,578	33.9%
Fisher	31,807	37.4%
Haskell	125,721	39.2%
Jones	183,216	37.6%
Nolan	185,815	45.2%
Shackelford	81,045	34.3%
Stephens	120,400	26.6%

Workmen Start Work On Remodeling Fire-Destroyed Station

Workmen Monday morning began the project of rebuilding the corner of South Central Avenue and Southwest First Street formerly operated by Ed Dodd. The rebuilding is scheduled to take in advises The Herald in a postal about 60 days, according to A Hudson and Henry Albritton, owners of the property.

Magnolia has signed a new lease

FRED C.SMITH, MGR.

Congressman Burleson Decries Great Menace of Obscenity in Mail Orders

gressman Omar Burleson of An- They have all sorts of schemes, son in his weekly news letter from such as an advertisement to pur-Washington to The Herald. He chase some innocent item such as continues: The sale of obscene literature and photographs by rifle. They receive the child's mail has now reached sales estimated at more than half a billion

The postmaster general has emphasized that the absolute privacy right. The post office does not and should not violate this right unless it has absolute evidence that the mail is being used for unlawful purposes. For the post office department to reach this problem and prosecute offenders, they must rely on the complaints of an alert citizenry.

Until August of 1958 an additional handicap was on the post office department, Obscenity laws | dlers of obscenity are contributing had shackled the government by permitting it to prosecute only at the point of origin of the mail. This meant that court actions occurred mostly in New York City and Los Angeles, but could not be prosecuted in the community where it was received. In the first place, the offense was difficult to prove by witnesses, and this monstrous practice on the nasecond, the standards of morality and decency are usually different greatest possible cooperation, in the place where this filth is re- those responsible for the enforceceived than from the cities where it is mailed.

In 1958 an amendment was enacted into law, which permits the post office department to prosecute violations where the obscene material is received, as well as where it was mailed. During the past year 14,000 separate investigations have been completed. About two-thirds of the investigations were based on complaints state laws. from American parents whose children receive lewd and obscene hind new and stiffer legislation materials through the mails,

Income Tax Lessons Making Tax Returns Easier to Formulate

The Internal Revenue Service is trying mighty hard to make the American system of voluntary compliance better, reminds Tax Man Sam in a release to The Herald. They are trying to help more people know when and where to volunteer insofar as their taxes are concerned.

The tax men are also seriously concerned about people who pay tax they don't owe. One of the best parts of the tax education program is the high school income tax course. Any teacher can take the materials furnished by internal revenue and in a few class essions have the students preparng correct tax returns. At least the returns prepared by these students have only 25 per cent of the

erious about teaching a few new tricks to us old-timers. Their advice is simple-read the tax instructions, keep good records all through the year, and see what the tax will be before not after

NO KIDDING AROUND-In "The Man in the Net," Mirischaguar production for United Artists release which plays Sunday, Monday and Tuesday at both the Ferguson and Hamlin Drive-In Theaters, Alan Ladd found himself acting with five youngsters aged from eight to 10 years who are supposed to help him solve a murder for which he has been framed as the guilty party. The kids have more scenes with Ladd than do his adult co-stars, Carolyn Jones, Diane Brewster and Charles McGraw. Ladd and Jones are shown in a scene of the picture above.

Rally Day Next Thursday Will Signal Opening of Baptist Camps at Lueders rado

July 6-9-Junior Girls Auxiliary amp for Abilene, Jones, Fisher and Stonewall associations.

Ambassador camp

July 27-30-Junior Royal Amassador camp.

ary Union camp. August 3-Brotherhood camp.

Camera's Critical **Eye Catches Flaws** In Picture Making

The critical, probing eye of the cinemascope camera demands complete scenic authenticity. It refuses to cooperate with the filmorder to save costs or time on his sooting schedule. Like the superscientific bloodhound many low budget producers have found it to be, it roots out make-shift or slapbang backgrounds, faults in foreground scenery and even exposes the faces and bodies of the actors to rigorous examination,

It was with this fact in mind that Twentieth Century-Fox emphasized the need for accurate locales for the filming of A. B. Guthrie Jr.'s "These Thousand Hills," a cimeascope deluxe color production starring Don Murray, Richard Egan, Lee Renick, Patricia Owens and Stuart Whit-

After months of planning and searching, the film, which plays Sunday, Monday and Tuesday at both the Ferguson and Hamlin Drive-In Theaters, was located in and around the magnificent Mountain Ute Indian Reservation in the four corners area of Eastern Colo-

These never-before-photographed highlands were thrown open to Twentieth Century-Fox after some deliberation on the part of the 'God's Word for the Hour" at Council of Chiefs, a governmental body which made war decisions for the tribesmen 80 years ago and which has changed form but ning at 9:30 a. m., will be devoted little since.

Nearby the reservation, the little own of Silvertown, which is still served by an ancient narrow-gauge railroad, was used as a facsimile of "Fort Brock," where much of the outdoor action of the story

Free of telegraph poles, refinery anks and other scenic sore spots of modern times, the mighty lensed inemascope cameras ranged freey from the pastoral highlands to the mines and cattle pens of the

Loses to Stamford in Sunday Game, 5 to 7

Good sized crowd attended the

Sunday afternoon baseball game between outstanding colored teams of the area at the Hamlin Pied Piper baseball diamond, when the Hamlin Invaders lost to the Stamford Red Sox by a score of 5 to 7. Fred Thompson Jr. pitched six innings for the Invaders after givand general recreation ing up six hits. He was relieved by Buddy Haley, manager of the team, who allowed two more bingles. Jack Clark pitched for the Stamford crew, giving up only three hits. Clark Baldwin got a

> hit one good for three bases for the Invaders. The Invaders will play a return match with the Snyder Hogs on the local diamond Sunday afternoon at 3:00 o'clock. Hamlin lost

to Snyder earlier in the season.
